**Report of Ecological Sanitation (ecosan) booth in  
3<sup>rd</sup> Student's Scientific and practical Achievements Exhibition  
In Farzanegan High school  
Tehran-Iran**

**3<sup>rd</sup> students' scientific and practical achievements exhibition was held in 12-14 April 2005 in Farzanegan high school, Tehran-Iran.**

**The main achievements of this exhibition were student's creativity and participation in scientific and practical applying of studies concepts.**

**Research and educational part of APA21 and EWBI with belief of important role of students and teachers to promote and develop world wide ecosan system (ecological sanitation) and organizing student-teacher club in Farzanegan high school took part in this exhibition.**

**Ecosan booth which was included of posters, pictures, reports of implemented activities, ecosan puzzle, ecosan toilet model and sample of compost attracted the attention of visitors and encouraged all those interested to know more about ecosan concepts.**

**The end of exhibition leads to membership of interested visitors in students – teachers club.**

**Students are visiting Ecosan booth**

**Students learn Ecosan concepts through playing with ecosan puzzle of sida**

**Sample of compost**

**Learning the structure of Ecosan toilet model**

**Conversation between household women and trainer about Ecosan system:**

**Ecosan triple win**

**Photos of other parts of exhibition**

**Recycling booth**

**Astronomy booth**
